

## Overview

Orbi™ Voice is a smart speaker with premium audio that extends your existing WiFi to any room. It works with any WiFi router, but is optimized for the Orbi WiFi System. It has Amazon Alexa™ built in so you can voice control your music and other smart home devices. High-performance tri-band Mesh WiFi extends your existing WiFi by up to 2,000 square feet so you have better WiFi in more places.

Enjoy better WiFi and sound. Everywhere.

## Features

### Extend Your Existing WiFi Coverage.

Tri-band Mesh WiFi delivers powerful, seamless WiFi to any room. Less buffering and dead zones.

Fine tune your music and more.

### Audio by Harman Kardon.™

Smart speaker with impactful sound for a truly captivating listening experience.

### Amazon Alexa™ Built-in.

Voice control your music and your smart home. No separate Alexa-enabled device required.

### One WiFi Name & Smart Roaming.

Enjoy the convenience of a single WiFi name with seamless connectivity for your whole home.

This product comes with a limited warranty that is valid only if purchased from a NETGEAR authorized reseller. [www.netgear.com/warranty](http://www.netgear.com/warranty)

\* 90-day complimentary technical support following purchase from a NETGEAR authorized reseller.

<sup>†</sup> Maximum wireless signal range derived from IEEE standard 802.11 specifications. Actual data throughput and data over distance will vary. Network conditions and environmental factors, including volume of network traffic, building material and construction, and network overhead, result in lower actual data throughput rate and wireless coverage.

Works with your existing wireless router of any brand. Optimized for the Orbi WiFi Systems and Orbi routers.

For regulatory compliance information, visit <http://www.NETGEAR.com/about/regulatory>

<sup>1</sup> Internet plan and devices that support these speeds are required.

<sup>2</sup> Subscriptions may be required for streaming/music services. Service availability varies by region.

For indoor use only.
