

## Chapter 4: Additional Information

---

Connection to party line service is subject to state tariffs and may not be allowed. Contact the state public utility commission, public service commission or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure that the installation of this Wireless Cable Gateway does not disable alarm equipment. You may need to consult your Telephone Company or qualified installer.

This product meets the applicable Industry Canada technical specifications. The term "IC" before the certification / registration number only signifies that the Industry Canada technical specifications were met.

The Ringer Equivalence Number is an indication of the maximum number of devices allowed to connect to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

### **Prohibition of co-location**

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

### **Safety Information**

CAUTION: To maintain compliance with FCC' s RF exposure guidelines, this equipment should be installed and operated with minimum distance 20cm between the radiator and your body. Use on the supplied antenna. Unauthorized antenna, modification, or attachments could damage the transmitter and may violate FCC regulations.
